

## NATURAL RUBBER MEMBRANE NR-40 GREY

NR 40 Grey - a high-quality, grey, 40 Shore A natural rubber membrane with smooth finish. The high working temperature resistance up to 130 C and high elongation till 700% allows to extend service life of membrane. More cycles less downtime. The membrane is intended for use in membrane vacuum presses in the wood industry. The elastomer membrane NR 40 Grey is made in EU.

### Area of application

hot membrane and cold vacuum presses. Laminating of foil, veneer, paper, leather. Bending of plywood, MDF.

### Physical properties

Type:	Natural rubber			
Model:	NR-40-2.0-1700	NR-40-2.5-1700	NR-40-3.0-1700	NR-40-4.0-1700
Thickness, mm:	2	2,5	3	4
Thickness tolerance, mm:	+/- 0,3			
Width, mm:	1700			
Length, maximal, m:	15			
Density, g/cm <sup>3</sup> :	1.10 +/-0.02			
Work temperature, max. C:	130			
Hardness, Shore A:	40 +/- 5			
Elasticity, %:	700%			
Tensile strength H/mm <sup>2</sup> , (Mpa):	20			
Tear strength, H/mm:	60			
Color:	Grey			
Surface:	Smooth
