

## NATURAL RUBBER MEMBRANE NR-40 GREY/RED

NR 45 Grey/Red - a high-quality, grey-red, multi-layer natural rubber membrane with hardness 45 Shore A. The natural rubber membrane is made in EU from high performed components. The high tear and temperature resistance of material allows to extend service life of membrane. The elastomer NR-45 specially intended for use in membrane presses with positive negative pressure in the woodworking industry. The NR-45 Natural rubber membranes are supplied with cloth/smooth finish.

### Area of application

NR 45 Grey/Red is used in membrane presses with positive negative pressure. Laminating of foil, veneer, paper, leather. Manufacturing of doors, kitchen cabinets, 3D-panels and interiors.

### Physical properties

Type:	Natural rubber			
Model	NR-40-GR-2.0-1700	NR-40-GR-2.5-1700	NR-40-GR-3.0-1700	NR-40-GR-4.0-1700
Thickness, mm:	2	2,5	3	4
Thickness tolerance, mm:	+/- 0,3			
Width, mm:	1700			
Length, maximal, m:	15			
Density, g/cm <sup>3</sup> :	1.10 +/-0.02			
Work temperature, max. C:	130			
Hardness, Shore A:	40 +/- 5			
Elasticity, %:	700%			
Tensile strength H/mm <sup>2</sup> , (Mpa):	20			
Tear strength, H/mm:	60			
Color:	Grey/Red			
Surface:	Cloth/Smooth
